EXPERIENCE

• ANGULAR/JAVA DEVELOPER
DEC 2023 - CURRENT

eGov-Select is a recruitment platform in Belgium focused on hiring IT professionals for government and public sector institutions. As a consultant, my primary role involves being assigned to the Belgian Federal Police, where I work as a web developer with a focus on front-end development and UX/UI design.

Technologies & Skills

- JavaScript, TypeScript, Angular
- UX/UI Design
- Web Accessibility Audits
- Java, Spring Boot, Maven, JUnit, Mockito
- Python
- PostgreSQL
- HTML, CSS, Sass, PrimeNG
- Git (Version Control)

• VUE/JAVASCRIPT DEVELOPER
MAR 2023 – DEC 2023

Efficy is a leading European company that aims to be the leading provider of CRM and digital marketing solutions in Europe. As a developer on Efficy's Improvement team, I customize the company's CRM solution for internal use. My responsibilities include server and client-side JavaScript development, unit testing, technical documentation, CRM configuraton and attending technical meetings.

Technologies

- JavaScript, TypeScript
- Vue.js
- T-SQL, SQL Server
- HTML, CSS, Sass
- Git (Version Control)

• WEB DEVELOPER CONSULTANT
AUG 2022 - JAN 2023

After 3 years of experience as a functional analyst, I decided to switch careers and work as a full-time web developer consultant at EXPLEO Belgium, the Belgian branch of the global engineering and consulting company. Their goal is to provide quality assurance and digital transformation services to various sectors in Belgium.

Technologies & Skills

- React, Angular
- Java, Spring Boot, Maven, JUnit, Mockito
- Materialize, Bootstrap
- OpenAPI, Swagger
- Jenkins (CI/CD)
- TDD

• WEB/CMS FUNCTIONAL ANALYST
SEP 2019 - AUG 2022

Upon completion of my studies, I worked at SMALS as a web and CMS-oriented functional analyst. SMALS is an IT services non-profit organization working exclusively for the Belgian government. My main responsibilities were all about successfully managing web-based projects for Belgian institutions.

Responsabilities

- Waterfall project management, with implementation of several Agile (Scrum) concepts
- User stories redaction within JIRA and Confluence
- Configuration of content-types and forms within ElasticMS (SMALS exclusive CMS)
- Web/API development in Twig
- Symfony's PHP template language
- Projects budget and effort estimations in Project Initiation Documents (PID)
- UX design & Wireframing
- Leading various workshops and product demonstrations

• QA ANALYST (INTERNSHIP)
SEP 2017 - SEP 2019

During my 2 years part-time work and training during my Business Analyst master's degree, I had the opportunity to work as a junior business & functional analyst at Business Systems Integration (BUSI), a consultancy IT services company.

EDUCATION

• IT BUSINESS ANALYSIS – MASTER
ICHEC & ECAM
JAN 2017 - JAN 2019

After my marketing studies, I decided to take on a 2 years - half-time work and study - master's degree about IT Business and Functional Analysis.

• MARKETING – BACHELOR
EPHEC
SEP 2014 - SEP 2017

After having first studied Sound Engineering & Music Production, I decided to start a bachelor's degree in Marketing.
